**Marks:**

- a) We offer basically 2 types of Lidding films: Laminated film and Co-Extruded film.
- b) They are either laminated to a base sealant layer, or a Sealant is co-extruded for Forming films or various different Trays. Different films for different applications.
- c) Anti-Fogs and Easy Peel are available on certain films.
- d) We offer three different gas barrier properties to choose: EVOH High Barrier, Nylon Medium Barrier and PET, PE weakness barrier properties.
- e) AF= Anti-Fog; EP = Easy Peel; PT = Printed; LK = Lock Seal; HB = High Barrier; MB = Medium Barrier; NB = Weak Barrier.
- f) Pasteurisation Upto 95 degrees Celsius (203F).

**Guages :** Various depending on application

**Thickness:** 40um to 100um

**Width:** 50mm to 1200mm

**Cores:** 76mm or 152mm

**Length:** 100meters to 5000meters

**Printed:** Up to 10 colors
